Short Courses are a key component of the Laos Australia Institute program.</p>
3.2 Goals & Purpose	<p>The Laos Australia Institute (LAI) supports human resource development in Laos. LAI is the Australian Government's leading program for scholarships and training, as well as a source of technical advice and support to the public and private sectors. We highly value gender equality, as well as disability and socially inclusive development. Our work aims to overcome barriers and challenges faced by women, people with a disability, and people from different ethnic backgrounds or remote communities.</p> <p>The current phase of LAI has a renewed program logic and renewed emphasis on short courses and other modalities of training and development in addition to long term scholarships. 4 Course details

4.1 Background	<p>Gender mainstreaming is a globally recognised strategy for achieving gender equality and good governance. It involves considering the impacts of policies and programs, from planning and design to implementation and evaluation, on women, men, girls, and boys – towards supporting more effective and equitable outcomes. It ensures that policies are more relevant and respond more effectively to different segments of society.</p> <p>Laos has set its sights on graduating from Least Developed Country status within the next few years – having made steady progress on both the Human Asset Index and Economic Vulnerability Index. In recent years, the government has made significant commitments, through national law and policy, as well as international agreements, to advance and promote inclusion and human rights. The Lao PDR Constitution states that women and men have equal rights and notes that women, especially those living in remote rural areas and from ethnic communities, are disadvantaged in their ability to access their rights.² Laos is a signatory to international agreements and conventions that encourage and protect the rights of women and girls – for example Laos ratified the Convention for the Elimination of all forms</p>
-----------------------	--

² Asian Development Bank, 2011.

of Discrimination Against Women (CEDAW) in 1981, last submitting a periodic review report in 2017.³ Lao PDR has taken several steps towards ensuring women's rights under the law, including: revising the Constitution in 2015 to provide equality before the law, including on the grounds of gender; amending the Law on State Budget in 2015 to guarantee gender equality in the expenditure of the State budget; and approving the third national strategy for gender equality, 2016–2025. In addition, most official bodies are required to include a representative of the Lao Women's Union, a Party organ and mass organisation with a mandate to preserve and promote the traditional role of women in society.

Despite this, persistent structural barriers continue to prevent the full realization of Laos' human potential, especially that of women, people living with disability, and those belonging to ethnic groups: UNDP's Gender Inequality Index compares human development of women across countries, and in 2021, Lao PDR was given a score of 47.8% equality – the second worst in ASEAN (after Myanmar) and a reverse in the pre-pandemic trajectory.⁴

For example, in the civil service, as of 2015, 45% of employees were women – a small improvement from 41% in 2006. However, the higher in the hierarchy you go, the lower the percentage of women: at the technical level 52% of staff are women, while at the managerial level only 30% are women.⁵ Of civil servants with a master's degree or higher, only 24% are women: as one proxy indicator for career advancement potential, this indicates women are less likely to be promoted as they lack the higher education credentials held by their male counterparts.

Coming out of the February 2021 elections, the percentage of women in parliament decreased to 22%. At the provincial level and below, there are very few women in leadership – with zero female provincial governors and less than 3% of village chiefs being women.⁶

It was noted in Report of the Special Rapporteur on Extreme Poverty and Human Rights after their visit to Laos in June 2019 that “government meetings were dominated by men, including several who expressed deeply patriarchal attitudes and blamed women for gaps in achievement. Women living in villages and camps were resoundingly more likely to report they had not been informed of, or consulted about, critical livelihood decisions, including resettlement and compensation, contract farming arrangements or disaster relief”.

DFAT's Gender Equality and Women's Empowerment Strategy⁷ recognises that gender inequality is a global issue, relevant to Australia and the economic, social, welfare and foreign policies of all countries. Work on gender equality aims to address the unequal gender norms that constrain everyone. Australia's Partnerships for Recovery Strategy includes approaches to address gender inequalities caused by Covid-19 through Australia's development cooperation, such as support on

Tetra Tech International Development

Code of Conduct and Client Service Standards

Purpose

The purpose of a Code of Conduct and Client Service Standards is to provide a framework for decisions and actions in relation to our employees' conduct both in employment and as Tetra Tech International Development representatives in front of our clients. It underpins our commitment to a duty of care to all Employees, stakeholders and clients receiving our services. The document explains the principles covering appropriate conduct in a variety of contexts and outlines the minimum standard of behaviour and client service expected from Employees.

It is important for Tetra Tech International Development staff and team members to understand that its clients are contracting and paying Tetra Tech International Development to be a professional, responsive, and proficient contractor. In this context, Tetra Tech International Development staff and team members are not to approach clients for solutions or additional inputs for every problem, rather they should be able to identify and quickly address and solve problems in activity management.

Scope

This policy applies to all Employees of Tetra Tech International Development and all of its subsidiaries and related entities.

This policy applies in respect of conduct which relates to or is connected with, in any way, work with a Tetra Tech International Development company, or in connection with a Tetra Tech International Development Group Company provided benefit. - While on duty in any place where Employees of any Tetra Tech International Development company are working
- Representing a Tetra Tech International Development company
- At a work function organised by a Tetra Tech International Development company
- Travelling for business related purposes.

Definitions

- (a) vehicles
- (b) offices
- (c) car parks
- (d) client worksites
- (e) demountables
- (f) workshops
- (g) warehouses
- (h) kitchens.

“Employees” means Employees as well as other non-Employees (such as independent and sub-contractors) who perform work for a Tetra Tech International Development Group Company.

Responsibilities

Managers and Supervisors

Managers and supervisors are responsible and accountable for:

- Undertaking their duties and behaving in a manner that is consistent with the provisions of the Code of Conduct and Client Service Standards
- The effective implementation, promotion and support of the Code of Conduct and Client Service Standards in their areas of responsibility
- Ensuring Employees under their control understand and follow the provisions outlined in the Code of Conduct and Client Service Standards.

Employees

All Employees are responsible for:

- Undertaking their duties in a manner that is consistent with the provisions of the Code of Conduct and Client Service Standards
- Reporting suspected corrupt conduct
- Reporting any departure from the Code of Conduct and Client Service Standards by themselves or others.

Code of Conduct

Tetra Tech International Development is a complex organisation, which involves a diversity of relationships. These relationships may be defined by differences in power, status, cultural diversity, organisational structures, contracting relationships, differing country laws, labour laws, international relationships and or national governments. It is essential in such a community that all Employees recognise and respect not only their own rights and responsibilities but also the rights and responsibilities of other members of the community and those of Tetra Tech International Development.

Tetra Tech International Development also recognises that many of their professional employees are also bound by codes of conduct or ethics defined by learned or professional societies or groups. It is recognised that these codes are not always in harmony. It is an obligation of an Employee to weigh the importance of these codes in each particular set of circumstances and notify an appropriate officer of Tetra Tech International Development where such conflict may arise.

Personal and Professional Behaviour

You should not behave in a way which has the intent or effect of offending or embarrassing other Employees or the public in a manner contrary to legislative requirements.

When carrying out your duties, you will:

- Obey any lawful direction from a person who has the authority to give the direction. If you have a dispute about carrying out a direction you may appeal to your senior manager.
- Behave honestly and with integrity. You will avoid behaviour that could suggest that you are not following these principles. This will include a duty to report other Employees who are behaving dishonestly.
- Make sure that you carry out your work efficiently, economically and effectively as you are able and that the standard of your work reflects favourably on yourself and the company.
- Follow the policies of the company in all aspects of work to achieve outcomes that are socially responsible and sustainable.
- Treat Employees, clients and stakeholders with respect.
- Maintain individuals' rights to privacy and undertake to keep personal information in confidence.
- Do not use, possess or distribute pornographic or offensive materials.
- Comply with all national and international laws.
- When representing the Company in public forums:

- Employees at all levels represent the Company in the course of their employment including when travelling on Company business, attending functions on behalf of the Company or internal Company meetings, conferences, training programs, seminars or any other function.
- Your behaviour in all these circumstances reflects on the Company and its image. As such, you should act in an appropriate business-like manner that will in no way harm the image of the Company or infringe any other Company policy including the Discrimination Free Workplace Policy.
- Where any Company function or meeting is held that involves the availability of alcohol, steps should be taken to ensure that it is not abused. You should be aware that being work-related, behaviour in those situations can be subject to disciplinary procedures.

Conflict of Interest

Potential for conflict of interest arises when it is likely that you could be influenced, or it could be perceived that you are influenced by a personal interest when carrying out your duties. Conflicts of interest that lead to biased decision making may constitute corrupt conduct.

Some situations that may give rise to a conflict of interest include situations where you have:

- Financial interests in a matter the company deals with or you are aware that your friends or relatives have a financial interest in the matter
- Directorships/Management of outside organisations
- Membership of Boards of outside organisations
- Personal relationships with the people the company is dealing with which go beyond the level of a professional working relationship
- Secondary employment, business, commercial, or other activities outside of the workplace which impacts on clients and/or Employees of the company
- Involvement in party political activities
- Access to information that can be used for personal gain.

You may often be the only person aware of potential for conflict. Therefore, it is your responsibility to avoid any financial or other interest that could compromise your ability to perform your duties impartially. It is also your responsibility to report any potential or actual conflicts of interest to your manager.

If you are uncertain whether a conflict exists, you should discuss that matter with your manager and attempt to resolve any conflicts that may exist.

You must not submit or accept any bribe, or other improper inducement. Any advances of this nature are to be reported to senior management. If you are dealing with, or having access to, sensitive information, you should be particularly alert to inappropriate attempts to influence you.

Outside employment/other external business activities

If you work full time for the company and you wish to engage in paid employment/other business activities (including participation in family company) outside your official duties, you are required to seek the approval of your manager and Human Resources. The approval should not be unreasonably withheld. However, if there is any real or potential conflict of interest the duties of your position with the company must come first.

If you work for the company on a part time or casual basis, you are required to advise your manager and Human Resources of any real or potential conflict of interest between your employment for the company and any other employment.

The company can request the details of any other employment in the event of allegations of conflict of interest.

Public Comment

Individuals have a right to give their opinions on political and social issues in their private capacity as members of the community.

Employees must not make official comment on matters relating to the company unless they are:

- Authorised to do so by the Managing Director and CEO

- Giving evidence in court
- Otherwise authorised or required to by law.

Employees cannot release the contents of unpublished or privileged knowledge unless they have the authority to do so.

Use of Company Resources

Employees must ensure responsible management and security in the use of Tetra Tech International Development resources and any resources managed by them for or on behalf of others.

Requests to use company resources outside core business time should be referred to management (or person authorised to handle such matters), for approval.

If Employees are authorised to use company resources outside core business times, they must take responsibility for maintaining, replacing, and safeguarding the property and following any special directions or conditions which apply. Company resources can include equipment, typing facilities, photocopiers, computers, tools, motor vehicles etc.

Employees using company resources **without** obtaining prior approval could face disciplinary and/or criminal action. Company resources are not to be used for any private commercial purposes (e.g. for 'profit' purposes) under any circumstances.

Security of Information

Employees are to make sure that confidential and sensitive information in any form (e.g. documents, computers files) cannot be accessed by unauthorised persons. Sensitive material should be securely stored overnight or when unattended.

Employees must ensure that confidential information is only discussed with people who are authorised to have access to it. It is considered a serious area of misconduct to deliberately release confidential documents or information to unauthorised persons and may incur disciplinary action.

Intellectual Property / Copyright

The term 'intellectual property' includes the rights relating to scientific discoveries, industrial designs, trademarks, service marks, commercial names and designations, and inventions.

Tetra Tech International Development is the owner of intellectual property created by Employees in the course of employment unless a specific prior agreement has been made. Employees must clarify the intellectual property position before making any use of that property.

Discrimination, Harassment and Workplace Bullying

Employees must not harass, discriminate against, or support others who harass and discriminate against colleagues or members of the public on the grounds of sex, pregnancy, marital status, age, race (including their colour, nationality, descent, ethnic or religious background), physical or intellectual impairment, homosexuality, or transgender. - Act in ways that may place a child at risk of abuse, including not giving due consideration to assessing and reducing potential risks to children as a result of implementing activities. Behaviours and actions that are prohibited include, but are not limited to, using inappropriate language or behaviour when dealing with a child or children, bullying, and harassing a child verbally or physically, physical punishment, exposing a child to pornography including on-line grooming and trafficking. Whenever possible avoid being alone with a child.

- Exploit the vulnerability of any target group in the context of development, humanitarian, and advocacy work, especially women and children, or allow any person/s to be put into compromising situations. Never abuse a position to withhold development or humanitarian assistance or give preferential treatment; in order to solicit sexual favours, gifts, payments of any kind, or advantage.
- Engage in sexual relationships with members of crisis-affected populations given their increased vulnerability and since such relationships are based on inherently unequal power dynamics and undermine the credibility and integrity of aid work.

Child Protection

For the purposes of this Code of Conduct and Client Service Standards, a child is any person under the age of 18 years.

The onus is on all Employees to use common sense and avoid actions or behaviours that could be construed as child exploitation and abuse when working for Tetra Tech International Development.

When carrying out your duties, you will:

- Not sleep close to unsupervised children unless absolutely necessary, in which case you will obtain your supervisor's permission, and ensure that another adult is present if possible
- Use any computers, mobile phones, video cameras, cameras, or social media appropriately, and never to exploit or harass children or to access child exploitation material through any medium
- Not use physical punishment on children
- Not hire children for domestic or other labour, which is inappropriate given their age or developmental stage, which interferes with their time available for education and recreational activities, or which places them at significant risk of injury
- Comply with all relevant Australian and local legislation, including labour laws in relation to child labour
- Immediately report concerns or allegations of child exploitation and abuse and policy non-compliance in accordance with appropriate procedures
- Immediately disclose all charges, convictions, and other outcomes of an offence, which occurred before or

When photographing or filming a child or using children's images for work related purposes, you will:

- Assess and endeavour to comply with local traditions or restrictions for reproducing personal images before photographing or filming a child
- Obtain informed consent from the child and parent or guardian of the child before photographing or filming a child and in doing so, you must explain how the photograph or film will be used
- Ensure photographs, films, videos, and DVDs present children in a dignified and respectful manner and not in a vulnerable or submissive manner. Children should be adequately clothed and not in poses that could be seen as sexually suggestive
- Ensure images are honest representations of the context and the facts
- Ensure file labels, meta data or text descriptions do not reveal identifying information about a child when sending images electronically or publishing images in any form.

Breaches of this child protection Code of Conduct and Client Service Standards may result in disciplinary and/or criminal action.

Corrupt Conduct

Corrupt conduct commonly involves the dishonest or partial use of power or position that results in one person/group being advantaged over another. Corruption can take many forms including, but not limited to:

- Official misconduct
- Bribery and blackmail
- Unauthorised use of confidential information
- Fraud
- Theft.

Any form of corrupt conduct will not be tolerated by the company. Disciplinary action up to and including dismissal will be taken in the event of any Employee participating in corrupt conduct.

Occupational Health & Safety

It is the responsibility of all Employees to act in accordance with the occupational health and safety legislation, regulations and policies and their respective organisations and use security and safety equipment provided.

Specifically, all Employees are responsible for safety in their work area by:

- Following the safety and security directives of management
- Advising management of areas where there is a potential problem in safety and reporting suspicious occurrences
- Minimising risks in the workplace.

Conduct of Current / Former Employees

Employees should not misuse their position to obtain opportunities for future employment.

Employees should not allow themselves or their work to be influenced by plans for, or offers of employment outside of Tetra Tech International Development. If they do there is a conflict of interest and their integrity and that of Tetra Tech International Development is at risk.

Former Employees should not use or take advantage of confidential information obtained in the course of their official duties that may lead to gain or profit, until it has become publicly available.

Client Service Standards

All Tetra Tech International Development staff and team members are committed to the following Client Service Standards:

- Implement activities professionally, with a focus on quality, developmental impact and long-term

sustainability and with proper regard to cross-cutting development policies, such as gender and the environment, and the whole-of-government approach to development.

- Maintain productive relationships with their counterpart Government and activity stakeholders. This includes a genuine focus on transferring skills to counterparts and promoting counterparts' longer term 'ownership' throughout the delivery of the activity.
- Focus on achieving results and outcomes in a manner that is always accountable and demonstrates probity, procedural fairness, and value for money.
- Take responsibility for progress of activities, consulting actively with the client and their counterpart on important problems and issues.
- Use experience and judgement to identify substantive problems in advance and then approach the client (and where appropriate the counterpart) with well-considered, well costed, options and recommendations.
- Demonstrate value adding, innovation, analytical rigour and quality assurance in project or activity management. This includes ensuring quality, clarity and accuracy of reporting, invoicing, and financial management.
- Promote high standards of personal conduct/behaviour, teamwork, and respect at all times. Lapses in these areas undermine relationships with counterparts, undermine activity effectiveness and reflect poorly on the client.
- Never make decisions that are the proper preserve of foreign governments and/or the funding agency, which alter the substance of the activity or create 'surprises' for the client or the counterpart.

Breaches of the Code of Conduct and Client Service Standards

Employees should note that breaches of certain sections of this Code of Conduct and Client Service Standards may be punishable under laws and legislation.

Breaches of this Code of Conduct and Client Service Standards may lead to disciplinary action. The process for disciplinary action is outlined in Tetra Tech International Development policies and guidelines, relevant industrial awards, and agreements.

I acknowledge that I have read and understood the above Code of Conduct and Client Service Standards and will comply with its contents.

RFT AM10270

Part E

Selection Criteria and Information Required for Price Assessment

1 Financial Proposal

Tenderers must submit a Financial Proposal as a part of their Submission in the separate MS Excel Spreadsheet provided.

It should be a stand-alone proposal and NOT to form a part of the Technical Proposal. This proposal must be submitted in a separate document. **The Financial Proposal is worth 20% of the total assessment score.**

2 Approach to the Financial Proposal

A financial price assessment of those Tenders assessed as technically suitable by the Technical Assessment Panel (TAP) will be undertaken by the TAP for Tetra Tech International Development. Tetra Tech International Development reserves the right to provide the financial component of any Tender to TAP members for their examination in the context of resource adequacy evaluation against the selection criteria in the technical assessment process.

3 Limited Information Required for Price Assessment

The final Course Budget is negotiated with the preferred tenderer. The financial detail required for the financial proposal (i.e. price assessment) includes the tenderer's management fee and personnel costs as indicated in the LAI Tender Financial Proposal Schedule 1-4 MS Excel spreadsheet (provided to the Tenderers).

Please note - Reimbursable costs associated with the course delivery are not to be included as part of the financial proposal. These costs will be negotiated with the preferred tenderer as part of the contract negotiations process in line with the mandated service levels.

Tables for inclusion within the Financial Proposal, including those containing information required for the purposes of the financial assessment, are:

Schedule 1: Personnel Course Design Cost

Schedule 2: Personnel Course Delivery Cost

Schedule 3: Fixed Management Fee

Schedule 4: Summary of Unit Costs for Tetra Tech International Development Price Comparison.

Please note! The tables are included in the *Financial Proposal* Schedule 1-4 Excel spreadsheet provided to the Tenderers.

Tenderers must complete all schedules showing their firm quotations in whole Australian dollars (\$AUD). Tetra Tech International Development requires these calculations for the purposes of disaggregating and checking the accuracy of Tenderers' total financial assessment figure. Only the final figure provided at Schedule 4 will be subject to the financial price assessment.

Tenderers should note that inaccurate or inconsistent calculations in the financial component of any Tender may, in Tetra Tech International Development's sole discretion, be grounds for Tetra Tech International Development to deem that Tender non-conforming and exclude it from further consideration under the RFT process.

Please note - Reimbursable costs (OSHC insurance, ground transport and social activities once every two months) associated with the course delivery are not included as part of the financial proposal. These costs will be negotiated with the preferred tenderer as part of the contract negotiations in line with the mandated service levels.

4 Content of Financial Proposal

Within the Financial Proposal Tenderers must address the criteria as set out in the table below. These criteria will be used to make a like-for-like financial comparison.

Financial Proposal Criteria

Schedule 1: Personnel Course Design Cost

Schedule 2: Personnel course delivery cost

Schedule 3: Fixed management fee

Total management fee to be charged by the tenderer for the design and delivery of the course as described in the Scope of Services. This must include any applicable insurance as outlined in the Draft Contract of this RFT at Part C. Tenderers must provide details in Schedule 3: Fixed Management Fee.

Tenderers must clearly detail any “other fees” to be charged to the course (e.g. financial costs, administration costs, special fees, staff on costs, etc.). These “other fees” will be subject to approval during the contract negotiation process. Noting again that this component forms part of the like for like assessment.

The Fixed Management Fee is exclusive of personnel costs and any other costs directly associated with course design and delivery as outlined in Part B of the Service Fees:
Reimbursable expenses incurred by contractor.

5 Retention of Price Component of Tenders by Tetra Tech International Development

The financial components of all Tenders, including those not considered technically suitable, will be retained by Tetra Tech International Development.

6 Escalation

There is no provision for escalation.

7 Goods and Services Tax (GST)

Refer to clause 1.14, 1.15 and 1.16 of the draft Contract.
